

OUR COMMUNITY

Scio Central School is located on Route 19, 4.5 miles north of Wellsville in Allegany County, Western New York. St. Bonaventure University in Olean is 30 miles away; Alfred University and Alfred State College in Alfred are 15 miles away; Buffalo and Rochester are both about 85 miles away.

Lands and streams for hunting and fishing are abundant throughout the Southern Tier. Water recreational sports are available at nearby Rushford and Cuba Lakes and opportunities for skiing are located at Swain and Ellicottville. There are also 5 golf courses in Allegany County alone and more in the surrounding counties.

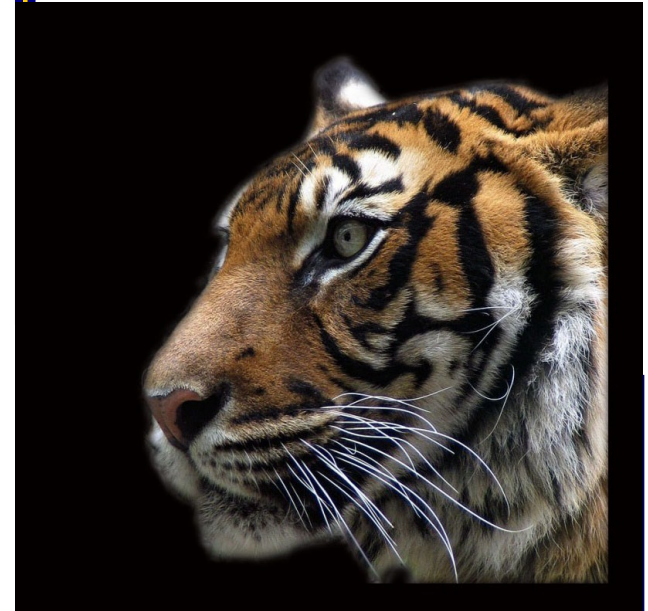

Scio is a safe, happy community in which to live and to raise children!

OUR DISTRICT

Scio is known throughout the area for its progressive educational philosophy, modern facilities and commitment to the education of all students.

We have a PreK-12 building with approximately 483 students enrolled in the district, a professional staff of 47 teachers and a non-teaching staff of 39 people.

Scio Central School is the hub of the community. The school district works with local government agencies and community organizations to improve the quality of education and life for students and community members.

OUR PROGRAM

Scio is proud of the fine educational program we are able to provide our students. Because of its small size, students receive individual attention within a friendly, supportive and caring environment.

Scio Elementary has an elementary library, an iMac-equipped computer lab, an elementary Art room, an elementary gym and a full Music program. We offer an advanced Math track for Middle School students to begin High School a year ahead of their peers.

For our secondary students, Scio School has a PC computer lab and an iMac computer lab as well as a lab in the Industrial Arts department. We also have a Secondary Library, and three Science labs.

Special Courses

Besides Regents courses in all subject areas, we also offer electives at the college level, both in-house and via distance learning. We are proud to partner with both Alfred State College and Jamestown Community College. Our students have the opportunity to earn up to thirty (30) college credits in the following areas:

- ◆ Technology
- ◆ Math
- ◆ Science
- ◆ English
- ◆ Social Sciences
- ◆ Foreign Languages

This allows our students the opportunity to be more successful on a college campus, possible secure additional college majors, and to complete degree programs in a shorter period of time.

Visit www.scio.schooltools.us to learn more about the outstanding program at Scio Central!
